COMMUNICATION UPDATE 1-24-2023

On 01-23-2023 the Center identified one positive Covid 19 staff member. The Center will continue to follow CDC guidance for testing protocols and infection control practices. Contact tracing conducted no other positive results identified.

Complete Care at Woodlands wants you to know that we remain committed to providing upfront and transparent daily updates regarding COVID-19 in our facility. We will continue to host video conference calls so you can remain as up to date as possible. Rest assured that our staff remains vigilant and supportive, and we are so proud of their loyalty and dedication!

Due to recent COVID concerns in all the facilities, Complete Care will conduct visitation as mentioned below:

1. Allowing visitation in designated areas only whenever possible for predetermined time frame.
2. Minimizing visits to 1-2 at a time. Avoiding visits for COVID+ patients but rather offer scheduled Google Duo calls. Compassionate Care visits will follow the same guidelines.
3. Communal dining and recreational activities will be discontinued at this time.
4. Masks must be worn at all times while visiting.

Complete Care at Woodlands will continue to follow protocols and guidelines established by both the State and Local Department of Health regarding daily and weekly data submissions pertaining to Covid-19. The Center will continue to follow guidance regarding the reopening phases developed by the CDC and Department of Health pertaining to Long Term Care establishments. Currently Union County transmission rate is moderate according to New Jersey weekly updates.

Moving forward we will continue testing staff and residents according to the established CDC, Local and State guidelines.
